Track Food Expiry	3

Epic - Food Donation Management:

The screenshot shows the Jira Epic 'Food Donation Management' page. The breadcrumb trail is 'Spaces / Food Bank Surplus Re... / FBSRP-1'. The epic title is 'Food Donation Management'. Below the title are buttons for '+', '...', and '≡'. The 'Description' section has a placeholder 'Add a description...'. The 'Child work items' section shows a progress bar at '50% Done' and a table of work items:

Work	Pri...	Stor...	As...	Status
☒ FBSRP-5 Post Surplus Food	High	5	Unassigned	Done
☒ FBSRP-6 Track Food Expiry	High	3	Unassigned	To Do

Below the table are sections for 'Linked work items' (with a placeholder 'Add linked work item') and 'Confluence content' (with a link to 'Project plan' and a 'Try template' button). The right sidebar shows the 'To Do' filter, 'Improve Epic' button, and a 'Details' panel with fields: Assignee (Unassigned), Reporter (Sudhiksha Varanasi), Labels (None), Due date (None), Start date (None), and Priority (Medium). There are also sections for 'Development' and 'More fields'.

Story - Post Surplus Food (Food Donation Management):

The screenshot shows the Jira Story 'Post Surplus Food' page. The breadcrumb trail is 'Spaces / Food Bank Surplus Re... / FBSRP-1 / FBSRP-5'. The story title is 'Post Surplus Food'. Below the title are buttons for '+', '...', and '≡'. The 'Description' section contains the text: 'As a Donor Partner, I want to post surplus food packages with quantity, food type, expiry time, and dietary tags, so that verified shelters can discover and reserve suitable surplus food before it expires.' The 'Subtasks' section has a placeholder 'Add subtask'. The 'Linked work items' section has a placeholder 'Add linked work item'. The 'Confluence content' section has a link to 'Product requirements' and a 'Try template' button. The right sidebar shows the 'Done' filter, 'Improve Story' button, and a 'Details' panel with fields: Assignee (Unassigned), Reporter (Sudhiksha Varanasi), Labels (None), Due date (None), Start date (None), Story Points (5), Sprint (FBSRP Sprint 1), Priority (High), and Parent (FBSRP-1 Food Donation Manag).

Summary:

Reflection Questions:

1. Did your estimations reflect the actual effort?

Yes, overall the estimations were fairly accurate. The smaller tasks were easier to complete, while the more complex tasks, such as managing customer orders, required more effort. Using story points helped us compare the difficulty of each task before starting the sprint.

2. Was your backlog well-prioritized?

Yes, I think the backlog was well-prioritized. We gave higher priority to the main features that directly affect customers, such as booking a table and placing a food pre-order. Less critical features were given lower priority so that the important work could be completed first.

3. How did your simulated sprint align with your plan?

The simulated sprint followed our plan quite well. We started with all the stories in To Do and then moved them to In Progress and Done as the work was completed. This helped us understand how tasks are managed during a real Scrum sprint and showed us how the planned work could be completed step by step.

4. What insights did the burndown chart give about your team's capacity?

The burndown chart gave us a clear idea of how much work was completed and how much was still remaining during the sprint. It also showed that our team was able to handle the planned workload. By looking at the decrease in remaining story points, we could see our progress and get an idea of our overall capacity.
